#### **INDEPENDENT AUDITORS' REPORT**

Members of the Board Houghton Lake Ambulance Authority Houghton Lake, Michigan

We have audited the accompanying financial statements of the governmental activities and the major fund of Houghton Lake Ambulance Authority, Houghton Lake, Michigan, as of and for the year ended December 31, 2007, which collectively comprise the Authority's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Authority's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the General Fund of the Houghton Lake Ambulance Authority, Houghton Lake, Michigan, as of December 31, 2007, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis on pages ii through vii and budgetary comparison information on page 16 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

BAIRD, COTTER AND BISHOP, P.C.

Baird, Cotte & Bishop, P.C.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

### FOR THE YEAR ENDED DECEMBER 31, 2007

The Houghton Lake Ambulance Authority is an independent governmental entity having the power to levy its own taxes. The Authority has implemented the provisions of Governmental Accounting Standards Board Statement 34 (GASB 34). The Management's Discussion and Analysis, a requirement of GASB 34, is intended to be the Houghton Lake Ambulance Authority board's discussion and analysis of the financial results for the year ended December 31, 2007.

#### **Financial Highlights**

- ♦ The assets of the Authority exceeded its liabilities at the close of the year by \$1,260,114. Of this amount, \$1,019,875 may be used to meet the Authority's ongoing obligations to citizens and creditors.
- At the end of the current year, unreserved fund balance for the General Fund was \$426,350.

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements. The Authority's basic financial statements are comprised of three components. 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements The *government-wide financial statements* are designed to provide readers with a broad overview of the Authority's finances, in a manner similar to a private-sector business. These statements are calculated using full accrual accounting and more closely represent those presented by business and industry. The entire Authority's assets and liabilities, both short and long-term, are reported. As such, these statements include capital assets, net of related depreciation.

The *Statement of Net Assets* presents information on all of the Authority's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Authority is improving or deteriorating.

The *Statement of Activities* presents information showing how the Authority's net assets changed during the fiscal year. All changes in net assets are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods.

Both of the government-wide financial statements distinguish functions of the Authority that are principally supported by intergovernmental revenues (governmental activities) from functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Authority include emergency services.

### MANAGEMENT'S DISCUSSION AND ANALYSIS

### FOR THE YEAR ENDED DECEMBER 31, 2007

#### **Fund Financial Statements**

The fund level statements are reported on a modified accrual basis in that only those assets that are "measurable" and "currently available" are reported. Liabilities are recognized to the extent they are normally expected to be paid with current financial resources. All of the funds of the Authority are governmental funds.

The Authority has the following type of fund:

Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statement, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental fund statements of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

#### **Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

#### Other Information

In addition to the basic financial statements, this report further presents Required Supplementary Information (RSI) that explains and supports the information presented in the financial statements.

### **Government-Wide Financial Analysis**

The Statement of Net Assets is the first statement in the Government-Wide Financial Statements section of this document. This statement is useful for providing an indicator of the Authority's financial position over time. The Net Assets of the Authority are \$1,260,114 at December 31, 2007, meaning the Authority's assets were greater than its liabilities by this amount.

### MANAGEMENT'S DISCUSSION AND ANALYSIS

### FOR THE YEAR ENDED DECEMBER 31, 2007

### Houghton Lake Ambulance Authority Net Assets as of December 31,

	<b>Governmental Activities</b>		
	2007		
Assets		_	
Current Assets	\$ 1,044,991	\$ 782,891	
Non Current Assets			
Capital Assets	436,244	431,831	
Less: Accumulated Depreciation	196,005	128,630	
Total Non Current Assets	240,239	303,201	
Total Assets	\$ 1,285,230	\$ 1,086,092	
Liabilities			
Current Liabilities	\$ 25,116	\$ 22,904	
Total Liabilities	25,116	22,904	
Net Assets			
Invested in Capital Assets, Net of Related Debt	240,239	299,009	
Unrestricted	1,019,875	764,179	
<b>Total Net Assets</b>	1,260,114	1,063,188	
<b>Total Liabilities and Net Assets</b>	\$ 1,285,230	\$ 1,086,092	

The most significant portions of the Authority's Net Assets are cash, taxes receivable, and investment in capital assets (e.g. land, buildings and equipment), less any related debt that is outstanding that the Authority used to acquire or construct the asset.

At the end of the current year, the Authority is able to report positive balance in net assets for the government as a whole.

The following table illustrates and summarizes the results of the changes in the net assets for the Authority. The condensed information was derived from the government-wide Statement of Activities.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

### FOR THE YEAR ENDED DECEMBER 31, 2007

### Houghton Lake Ambulance Authority Change in Net Assets for the Year Ended December 31,

		Governmental Activities		
		2007		2006
Revenues				
Charges for Services	\$	397,672	\$	253,564
General Revenues				
Property Taxes		446,632		422,992
Contributions from Local Units		275		9,672
Interest Earnings		24,464		7,959
Other		3,213		14,023
<b>Total Revenues</b>		872,256		708,210
Expenses				
Public Safety		675,330		674,102
Change in Net Assets		196,926		34,108
NET ASSETS - Beginning of Year		1,063,188		1,029,080
NET ASSETS - End of Year	\$ 1	1,260,114	\$	1,063,188

#### **Governmental Activities**

During the year ended December 31, 2007, the Authority's net assets increased by \$196,926 or 18.52% in the governmental fund. The majority of this increase represents the degree to which increases in ongoing revenues have outstripped similar increases in ongoing expenses. This is true despite the fact that GASB 34 now requires the Authority to maintain a record of annual depreciation expense and the accumulation of depreciation expense over time. The net increase in accumulated depreciation expense is a reduction in net assets.

The most significant part of the revenue for all governmental activities of Houghton Lake Ambulance Authority comes from the Townships of Lake and Roscommon. Both townships levied ambulance service millages this fiscal year. Each township levied 1.6438 mills for ambulance services.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

### FOR THE YEAR ENDED DECEMBER 31, 2007

The Authority's governmental activities expenses are dominated by public safety expenses that total 100% of total expenses. The Authority spent \$675,330 in the year 2007 on public safety expenses. Expenses for salaries and wages represent a large portion of the public safety expenses at \$363,627. Depreciation expense added another \$68,415.

### Financial Analysis of the Government's Funds

Governmental Activities The focus of Houghton Lake Ambulance Authority's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Authority's financing requirement. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the year.

### **Capital Assets and Debt Administration**

**Capital Assets.** The Authority's investment in capital assets for governmental activities as of December 31, 2007 amounted to \$240,239 net of accumulated depreciation. The total net decrease in the Authority's investment in capital assets for the current year was 20.77%.

Capital assets summarized below include any items purchased with a cost greater than \$1,000 individually and have a useful life greater than one year. A summary of capital asset categories is illustrated below:

### Houghton Lake Ambulance Authority Capital Assets as of December 31, 2007

2007		2006
Land \$ 45,00	00 \$	45,000
Buildings 56,42	25	56,425
Vehicles 224,82	22	224,822
Equipment 109,99	97	105,584
436,24	14	431,831
Less Accumulated Depreciation 196,00	)5	128,630
Net Capital Assets \$ 240,23	39 \$	303,201

Major capital asset events during the current year included the following:

• Billing software

### MANAGEMENT'S DISCUSSION AND ANALYSIS

### FOR THE YEAR ENDED DECEMBER 31, 2007

### **Economic Condition and Outlook**

The Authority is expected to be supported by the Townships in the future.

The mills to be levied for the 2008 tax roll for ambulance services are expected to be similar to 2007.

These factors were considered in preparing the Authority's budgets for the 2008 year.

### **Request for Information**

The financial report is designed to provide our citizens, customers, investors and creditors with a general overview of the Authority's finances and to demonstrate the Authority's accountability for the money it receives. If you have any questions about this report or need any additional information, contact Houghton Lake Ambulance Authority at 6868 W. Houghton Lake Dr., Houghton Lake, Michigan 48629 or call (989) 422-3312.

CHANGE IN NET ASSETS OF GOVERNMENTAL ACTIVITIES	\$ 196,926

### NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2007

### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### A. Reporting Entity

Houghton Lake Ambulance Authority is an ambulance authority supported by Roscommon and Lake Townships. Under the criteria established by accounting principles generally accepted in the United States of America, the Ambulance Authority has determined that there are no component units which should be included in its reporting entity.

#### B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Interest earnings and other items not properly included among program revenues are reported instead as general revenues.

The government-wide focus is more on the sustainability of the Ambulance Authority as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. The fund financial statements are similar to the financial statements presented in the previous financial reporting model.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

#### C. Measurement Focus, Basis of Accounting and Basis of Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the

### NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2007

government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. However, the Authority considers its tax levied in December each year as not available until the next fiscal year, and budgets those revenues in the following year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, are recorded only when payment is due.

Contributions from local units and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria are met. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

The accounts of the Ambulance Authority are organized on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements.

Houghton Lake Ambulance Authority reports one fund as follows:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government.

When both restricted and unrestricted resources are available for use, it is the Ambulance Authority's policy to use the restricted resources first, then unrestricted resources as they are needed.

### D. Assets, Liabilities and Equity

### 1. Deposits and Investments

The Ambulance Authority's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from date of acquisition.

- I. The Ambulance Authority Board is limited to investments authorized by PA 20 of 1943 and has authorized the Ambulance Authority Treasurer to invest funds as follows:
  - a. In bonds, securities, and other obligations of the Untied States or an agency or instrumentality of the United States.
  - b. In certificates of deposit, savings accounts, deposit accounts, or depository of a financial institution. Authorized depositories shall be designated by the Houghton Lake Ambulance

### NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2007

Authority Board at the Board's organizational meeting after each regular election of board members.

- c. In commercial paper rated at the time of purchase within the two highest classifications established by not less than two standard rating services and that matures not more than 270 days after the date of purchase.
- d. In repurchase agreements consisting of instruments listed in subdivision (a).
- e. In bankers' acceptances of United States banks.
- f. In investment pools through an interlocal agreement under the Urban Cooperation Act of 1967, 1967 (Ex Sess) PA 7, MCL 124.501 to 124.512.
- g. In investment pools organized under the Surplus Funds Investment Pool Act, 1982 PA 367, MCL 129.111 to 129.118.

### 2. Receivables and Payables

All receivables are shown net of an allowance for uncollectibles. Ambulance Authority revenues are recognized when they become both measurable and available for use to finance Ambulance Authority operations. Amounts which are not expected to be collected within sixty days after year end, or are not considered available until the next year are treated as deferred revenues.

### 3. Property Taxes and Deferred Revenue

The Ambulance Authority receives revenue from a countywide Ambulance millage on the December tax roll. The taxes are levied as of December 1 and are due upon receipt of the billing by the taxpayer. The actual due date is February 15, after which time the bills become delinquent and penalties and interest may be assessed by the collecting entity.

For the year ended December 31, 2007, the Authority levied the following amount per \$1,000 of taxable valuation.

<u>PURPOSE</u>	MILLS
Operating	1.6438/\$1,000

Substantially all of the taxes raised by this millage are not received by the Ambulance Authority until the following year and are not considered available; therefore, those taxes are deferred until the following year.

### 4. Inventories and Prepaid Items

Inventories are valued at cost. The General Fund inventories consist of medical supplies.

### NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2007

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

#### 5. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$1,000 (amount not rounded) and an estimated useful life in excess of one year plus all land. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant and equipment of the government are depreciated using the straight line method over the following estimated useful lives:

<u>ASSETS</u>	<u>YEARS</u>
Buildings	25-40
Land Improvements	10-20
Vehicles	3-5
Equipment and Furnishings	3-10

### 6. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities.

#### 7. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

#### 8. Use of Estimates

The presentation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2007

### II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

#### A. Budgetary Information

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. A public hearing is held to obtain taxpayer comments. Appropriations lapse at year end. Budgeted amounts presented are as originally adopted on January 10, 2007, or as amended by the Ambulance Authority Board from time to time throughout the year.

The appropriated budget is prepared by fund and activity. The Ambulance Authority Board exercises budgetary control over expenditures.

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is not employed by the Ambulance Authority because it is not, at present, considered necessary to assure effective budgetary control or to facilitate effective cash planning and control.

### **B.** Excess of Expenditures Over Appropriations

The following had expenditures in excess of appropriations:

	Budget	Actual
Salaries and Wages	\$ 341,311	\$ 363,627
Fringe Benefits	108,284	108,977
Office Supplies	11,675	11,868
Operating Supplies	32,500	42,508
Miscellaneous	1,202	2,355
Debt Service	0	4,192

### III.DETAILED NOTES ON ALL FUNDS

#### A. Deposits and Investments

The Ambulance Authority's deposits are all on deposit with Chase Bank in Houghton Lake, Michigan.

Investment rate risk. The Ambulance Authority will minimize Interest Rate Risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by; structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market; and investing operating funds primarily in shorter-term securities, liquid asset funds, money market mutual funds, or similar investing pools and limiting the average maturity in accordance with the Ambulance Authority's cash requirement.

### NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2007

*Foreign currency risk*. The Ambulance Authority is not authorized to invest in investments, which have this type of risk.

*Credit risk*. The Ambulance Authority will minimize Custodial Credit Risk, which is the risk of loss due to the failure of the security issuer or backer, by; limiting investments to the types of securities listed in the Ambulance Authority's investment policy; and pre-qualifying the financial institutions, brokers/dealer, intermediaries and advisors with which the Ambulance Authority will do business in accordance with of the Ambulance Authority's investment policy.

Concentration of credit risk. The Ambulance Authority will minimize Concentration of Credit Risk, which is the risk of loss attributed to the magnitude of the Ambulance Authority's investment in a single issuer, by diversifying the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized.

Custodial credit risk – deposits. In the case of deposits, this is the risk that in the event of a bank failure, the government's deposits may not be returned to it. As of December 31, 2007, \$337,798 of the government's bank balance of \$437,798 was exposed to custodial credit risk because it was uninsured or uncollateralized.

Custodial credit risk – investments. For an investment, this is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Ambulance Authority's investments are categorized to give an indication of the level of risk assumed by the Ambulance Authority at year end. Category 1 includes investments that are insured or registered, or securities held by the Ambulance Authority or the Ambulance Authority's agent in the Ambulance Authority's name. Category 2 includes investments that are uninsured and unregistered with securities held by the counterparty's trust department or its agent in the Ambulance Authority's name. Category 3 includes investments that are uninsured and unregistered, with the securities held by the counterparty, or by its trust department or its agent but not in the Ambulance Authority's name. At year end, the Ambulance Authority held no investments.

#### **B.** Receivables

Receivables as of year end for the Authority's General Fund, including the applicable allowances for uncollectible accounts are as follows:

Rec	01TT0	h	
K HO	HIVA.	1)	I-\
1100	or v u	$\mathbf{c}$	

Taxes Accounts	\$ 440,042 154,656	
Total Receivables	\$ 594,698	

### NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2007

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred revenue are as follows:

	Ur	Unavailable	
Property Taxes Receivable	\$	440,042	
Accounts Receivable		138,943	
		_	
Total Deferred Revenue	\$	578,985	

### C. Capital Assets

Governmental activities capital assets, net	\$303,201	\$ (61,690)	\$ (1,272)	\$240,239

### NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2007

Depreciation expense was charged to functions/programs of the primary government as follows:

Governmental activities:
Public Safety

\$ 68,415

C--:4-1 I

**Construction Commitments:** 

The government has no outstanding construction commitments as of December 31, 2007.

#### D. Pension Plan

The Authority contributes to a pension plan which is a defined contribution pension plan administered by the John Hancock company.

A defined contribution pension plan provides pension benefits in return for service rendered, provides an individual account for each participant, and specifies how contributions to the individual's account are to be determined instead of specifying the amount of benefits the individual is to receive. Under the Authority's defined contribution pension plan, the benefits a participant will receive depends on the amount contributed to the participant's account and the returns earned on investments of those contributions.

Upon the completion of 1 year of service, all full-time employees are eligible to participate in the plan. Contributions made by the Authority and employees vest immediately. The participant will receive benefits upon termination of employment with the Authority. Two employees are currently enrolled in the plan.

The plan requires the Authority to contribute 5% of the eligible employee's wages. Additionally, each participant contributes 10% of their salary. During the year, the Authority contributed \$2,478 to the plan.

#### E. Lease Information

	<u>Capital Lease</u>	
Debt at January 1, 2007	\$	4,192
Liabilities Retired		(4,192)
Long-Term Debt at December 31, 2007	\$	0

### NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2007

### IV. OTHER INFORMATION

### A. Risk Management

The government is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; natural disasters, and worker's compensation claims. The government carries commercial insurance to guard against loss from these risks.

To the Authority Board Houghton Lake Ambulance Authority Houghton Lake, Michigan

In planning and performing our audit of the financial statements of the governmental activities and the major fund of Houghton Lake Ambulance Authority, Houghton Lake, Michigan as of and for the year ended December 31, 2007, in accordance with auditing standards generally accepted in the United States of America, we considered Houghton Lake Ambulance Authority's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the governmental unit's internal control. Accordingly we do not express an opinion on the effectiveness of the governmental unit's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or a combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control. We consider the following deficiencies to be significant deficiencies in internal control:

### 1) Lack of Segregation of Duties

The relatively small number of people involved in the accounting functions of the Authority makes it difficult to adequately segregate duties. Segregation of accounting duties is a fundamental method of strengthening internal control. However, in deciding what internal control procedures should be implemented, the Board must consider the costs of implementing them and weigh those costs against the benefits to be derived from their implementation.

#### 2) Lack of Adequate Controls to Produce Full Disclosure GAAP Basis Financial Statements.

All Michigan governments are required to prepare financial statements in accordance with generally accepted accounting principals (GAAP). This is a responsibility of the government's management. The preparation of financial statements in accordance with GAAP requires internal controls over both (1) recording, processing, and summarizing accounting data (i.e., maintaining internal books and records), and (2) reporting government-wide and fund financial statements, including the related footnotes (i.e., external financial reporting).

As is the case with many smaller and medium-sized entities, the government has historically relied on its independent external auditors to assist in the preparation of the government-wide financial statements and footnotes as part of its external financial reporting process. Accordingly, the government's ability to prepare financial statements in accordance with GAAP is based, in part, on its reliance on its *external* auditors, who cannot by definition be considered a part of the government's *internal* controls.

This condition was caused by the government's decision that it is more cost effective to outsource the preparation of its annual financial statements to the auditors than to incur the time and expense of obtaining the necessary training and expertise required for the government to perform this task internally. As a result of this condition, the government lacks internal controls over the preparation of financial statements in accordance with GAAP, and instead relies, in part, on its external auditors for assistance with this task.

The government has evaluated the cost vs. benefit of establishing internal controls over the preparation of financial statements in accordance with GAAP, and determined that it is in the best interests of the government to outsource this task to its external auditors, and to carefully review the draft financial statements and notes prior to approving them and accepting responsibility for their content and presentation.

A material weakness is a significant deficiency, or a combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control. We believe that the deficiencies described in (1) (Lack of Segregation of Duties) and (2) (Accounts Receivable Reconciliation) above constitute a material weakness.

This communication is intended solely for the information and use of the Board and others within the organization. This restriction is not intended to limit the distribution of the report, which is a matter of public record.

BAIRD, COTTER AND BISHOP, P. C.

### COMMUNICATION WITH THOSE CHARGED WITH GOVERNANCE

To the Board Houghton Lake Ambulance Authority Houghton Lake, Michigan

We have audited the financial statements of the governmental activities and the major fund of Houghton Lake Ambulance Authority for the year ended December 31, 2007, and have issued our report thereon dated February 29, 2008. Professional standards require that we provide you with the following information related to our audit.

#### Our Responsibility under U.S. Generally Accepted Auditing Standards

As stated in our engagement letter dated January 15, 2008, our responsibility, as described by professional standards, is to express opinions about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles. Our audit of the financial statements does not relieve you or management of your responsibilities.

#### Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by Houghton Lake Ambulance Authority are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2007. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. There are no significant transactions that have been recognized in the financial statements in a different period than when the transaction occurred.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the financial statements was:

Management's estimate of the taxes receivable which is based on revised 2007 taxable values obtained from Roscommon County and the Ambulance Authority's millage rate. We evaluated the key factors and assumptions used to develop the receivable in determining that it is reasonable in relation to the financial statements taken as a whole.

### Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

#### Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. The attached misstatements detected as a result of audit procedures were corrected by management.

#### Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

### Management Representations

We have requested certain representations from management that are included in the management representation letter dated February 29, 2008.

#### Other Audit Findings or Issues

During the course of our audit of the basic financial statements of Houghton Lake Ambulance Authority for the year ended December 31, 2007, we noted the following list of items which we feel deserve comment:

#### Budgeting

During our audit we noted that the budget was not approved until the fiscal year had begun. The Board should approve the budget prior to incurring expenditures. We also noted various functions which had expenditures in excess of appropriations. The Authority's Board should amend the budget prior to incurring excess expenditures. The Authority is also required to budget a beginning and ending fund balance when adopting the budget.

### Condition of Accounting Records and Accounting Controls

We would like to commend the accounting personnel for their efforts in accumulating the information needed for our audit. We encourage you to review your internal and accounting controls on an accrual basis to ensure they are adequate and operating as intended.

This communication is intended solely for the information and use of the Board and others within the organization. This restriction is not intended to limit the distribution of the report, which is a matter of public record.
